

ELEKTROMED

EXCELLENCE IN METERING

EXCELLENCE IN METERING))

COMPANY PROFILE

Founded in 1994, Elektromed continues to add new ones to its successes and to have a pushing power in the development metering technology with the prizes awarded thereto. With a yearly production in excess of 3.450.000 electricity, water and gas meters, Elektromed is one of the world's largest suppliers in meter market.

The organization is flat, with integral empowerment and customer orientation at all levels. 850 qualified staff are employed at the head office in Ankara, Turkey

Elektromed supports its manufacturing activities bearing TS-EN ISO 9001 certificate of quality in all stages from design to after-sales services with its widespread and expert service network.

Its attention and sensitivity on manufacturing quality which is the manufacturing philosophy of Elektromed has been combined with the opinion concerning the right of living in a cleaner environment and has put itself under obligation with the TS-EN ISO 14001 certificate, which is the environmental management system.

By utilizing the technological means developed at the same direction with the changing demands, Elektromed always possesses the dynamism to meet the requirements of the market with its dynamic Research and Development Staff.

Elektromed has the manufacturing capacity, which can meet all kinds of demands, and a strong Research and Development department as the leader of the sector with a wide range of products with the brand marked Alfatech, Alfasu and Alfagas belonging to it.

More than 400 personnel who are directed by experienced technical directors process the raw materials selected carefully. Elektromed serves high quality products to its customers by combining the designs whose patents belong to itself with advanced technology. Elektromed has taken the maximum precautions for the protection of the world we live in by combining its manufacturing activities bearing TS-EN ISO 9001: 2000 certification TS-EN ISO 14001 environmental management systems, gave this awareness to all its personnel and has continued and is still continuing its after-sales services in a fast and accurate manner by supporting each product it manufactures by its widespread service networks.

The meters of Elektromed, which has TS-EN 9001-2000, particular institutes of standards approve Quality Certificate, passing through a high-level quality system in modern equipped facilities where technological developments are closely followed.

AFTER SALE SERVICE CAPABILITIES

Elektromed provide 7/24 quite prompt after sale service to approximately 2.400.000 Prepaid Natural Gas and Water Meter end users overall Turkey. These figures are the data, which are taken as of December 2009.

In our service network that we offer state of art developed technologies, customer satisfaction is considered as basis. Elektromed has the leader status at the point of service. Elektromed offers Maintenance and Repair Services of Natural Gas and Water Meters with Electronic Card in 10.000 m²-established area in Ankara with 90 service teams and 223 technical personnel. Maintenance and Repair Service is offered in Istanbul with 12 mobile teams and 27 technicians .

Our immediate intervention teams are always prepared 24 hours a day in two points in Ankara and European and Anatolian side of Istanbul. These services are also offered with no interruption in special and official holidays.

QUALITY POLICY

Elektromed will make a permanent and purposive effort to acquire and maintain an image as manufacturer of quality products and services to the customers. This is ensured through corrective and preventive actions plus continuous improvements of the effectiveness of the quality system.

Quality, a genuine philosophy

The quest for total quality is a priority within Elektromed. The recent investments made in Research and Development centres for the modernisation of testing and metrology equipments bear witness to the group's aim to stay one step ahead of technological advances in a constantly changing market.

Our laboratories are approved and certified by national and international organisations (TÜRK-AK Turkish Accreditation Agency). Their performance exceeds the standards set by the regulatory bodies, which further guarantees the accuracy, reliability and durability of our products and systems.

The “TQM” culture applies to everyone

All the Elektromed manufacturing sites are ISO 9001:2000 certified and fully conforms to the TQM (Total Quality Management) programme set up by Elektromed many years ago.

This Quality programme, supported by the entire Management, is the foundation for all Elektromed employees’ commitment to deliver top quality service in their day-to-day operations

Safeguarding our future

In fulfilling our mission to provide innovative, competitive metering products and systems and deliver optimal customer service, Elektromed is fully aware of environmental concerns. Environment, safety and risk management are an integral part of our general policy. Elektromed sites are already ISO14001 certified and have implemented an environmental management system. Aimed at continuous improvement in the use of energy and water and in reducing or recycling waste that will result in better quality environment and safety that will enhance company performance and profitability by reducing unnecessary expense.

ACHIEVEMENTS AND DEVELOPMENT HISTORY

Elektromed has been founded in 1994 in Ankara and its production capacity has increased by accelerating its investments together with the developing technology. Elektromed has enlarged its covered manufacturing area to 15.000 m² with factories in Ankara, Izmir and Hamm Westfallen Germany. Elektromed powered the R&D department by huge investments for new projects. By means, Elektromed is still continuing its works ambitiously towards being the pioneer of the electronic meter market by equipping its research & development center with the last growing technology. Elektromed manufactures Alfagas, Alfasu brands marked Prepaid Natural Gas and Water Meters with Electronic Card and Alfatech brand marked Electronic Electricity Meters. Elektromed is one of the leading firms of the world with its digital meter manufacturing over 5,500,000 pieces. Elektromed, who accepted being beneficial for humanity as a principle with its expert personnel has been a model for other firms with the technological innovations and inventions it realizes.

Milestones in our history:

- 1994 First Prepaid and domestic-type natural gas meter
- 1995 Kit manufacturing for the transformation of the present mechanical natural gas meters into electronic
- 1995 Given letter of appreciation by Ankara Chamber of Industry due to "Successful Works Towards Product Development"
- 1996 Prepaid electronic water meter (residential type)
- 1996 Has been the 176th among 250 Industry Establishments of Istanbul Chamber of Industry following the first 500 Industry Establishments in Turkey
- 1997 Prepaid Natural Gas meter AGS-02 type
- 1997 Granted the "Product Development" Prize (Prepaid Water Meter with Electronic Card) by Ankara Chamber of Industry
- 1998 Prepaid Natural Gas meter AGS-02/B type
- 1998 Has been awarded by ASO with a Plate of Gratitude for paying "High Rank Corporation Income Tax" overall Turkey and with a letter of appreciation by Ankara Financial Office
- 1999 First prepaid monophase electronic electricity meter EM-04 type
- 1999 Prepaid Natural Gas meter AGS-03 type
- 2000 Multi-tariff monophase electronic electricity meter EM-02 type
- 2000 Prepaid Natural Gas meter AGS-04 type
- 2001 Multi-tariff three phase electronic electricity meter EM-11 type
- 2001 Has been the 1st among the tax payers paying "High Rank Corporation Income Tax" to Sincan Tax Office to which, Ankara Sincan Organized Industry Zone is dependent
- 2002 Multi-tariff three phase electronic electricity meter EM-12 type
- 2003 Prepaid electricity-water-gas meter to operate with one card
- 2003 Prepaid Natural Gas meter AGS-05 type
- 2003 Has been the 373rd in the First 500 Large firms of Turkey research performed by Istanbul Chamber of Industry
- 2004 Active reactive (inductive-capacitive) combination boiler electronic electricity meter EM-20 type; Exterior multi-tariff mono phase (EM-03) and three phase (EM-13) electronic electricity meter
- 2004 Active-reactive (inductive-capacitive) static electricity meter(X5)
- 2004 Outdoor multi tariff single phase (EM-03) ve three phase (EM-13) static electricity meter
- 2004 Certificate given from Government Statistic Institute for assisting data collection
- 2004 317th big company of Turkey's 500 technology company
- 2004 Turkey's 5th electronic card producer
- 2006 Ultrasonic water meter
- 2007 OHSAS 18001 Occupational Health & Safety Advisory Services, TÜV Nord Certificated
- 2009 Ultrasonic Gas Meter
- 2009 PLC (Power Line Carrier) Split Metering
- 2009 ASO Inovation Award
